Schedule 1

SERVICE LEVELS

1. SERVICE LEVELS

1.1. Definitions

The following Service Levels will apply to all Services supplied pursuant to the Agreement, with the exception of Wholesale Line Rental Services. The provision of Wholesale Line Rental Services is subject to the Service Levels set out in Schedule 3. The Company shall prioritise all Support Requests based on its reasonable assessment of the severity of the Fault reported by the Customer and respond to all Support Requests in accordance with the response times specified in the table set out below:

Priority 1, Critical Outage

Problems that severely affect call processing service, traffic and require immediate corrective action (24x7) for example:

- 100% of users cannot access the Services;
- 100% of users cannot connect to voice servers;
- No inbound calls can be placed into queues;
- No outbound calls can be made from the system.

Priority 2, Major Impact

Problems that cause conditions that significantly affect system operation, maintenance, and administration and require immediate attention. The urgency is less than in critical situations because of a lesser effect on system performance, for example:

- There are call processing issues with a majority group of users (>50% of users);
- The system performance is degraded;
- Administration of service is degraded;
- There is no reasonable workaround.

Priority 3, Minor Impact

Problems which do not significantly impair the functioning of the system and do not significantly affect service to customers, for example:

- Individual agent issues;
- Problem is non-critical or not service affecting;
- There is a reasonable workaround.

Priority 4, Informational

Information needed concerning product capabilities, advice or basic configuration.

This Priority is restricted to "How To..." Questions and therefore handled as non-service impacting, for example Configuration questions:

- Usability issue, documentation problem
- There is an easy workaround or no workaround is required

1.2. Priority Response Time Frames Definitions:

- 1.2.1. **Response:** The time from creation of a ticket until contacted by the Company or its Authorised Provider;
- 1.2.2. **Restoration:** The time from creation of ticket until the Company or its Authorised Provider have restored the Services. If the problem cannot be immediately resolved, the Company or its Authorised Provider may provide a work around until the problem can be resolved;
- 1.2.3. **Resolution:** The time from the creation of a ticket until the Company or its Authorised Provider have a full fix to the issue.

		Target Times			
Level	Category	Response	Restoration	Resolution	Measurement Period
Priority 1	Critical	<1 hour	<4 hours	<24 hours	24 x 7 x 365
Priority 2	Major	<4 hours	<8 hours	<7 days	Mon – Fri 0800 : 1800
Priority 3	Minor	<1 day	<2 Working Days	<30 days	Mon – Fri 0800 : 1800
Priority 4	Informational	<5 days	n/a	As needed	Mon – Fri 0800 : 1800

- 1.3. The Service Levels set out above are target Response, Restoration and Resolution times only and do not constitute performance guarantees. Failure by the Company to meet any Service Level shall not constitute a breach of this Agreement, nor shall it entitle the Customer to terminate the Agreement, withhold payment for Services provided, or claim any form of compensation, unless expressly agreed otherwise in writing.
- 1.4. The Company or its Authorised Provider shall use reasonable endeavours to provide a solution within the above target timeframes. For Priority 1 (Critical Outage) and Priority 2 (Major Impact) issues, the Company or its Authorised Provider will aim to provide a temporary solution to temporarily fix the Fault with the Service while a permanent solution is developed. Where restoration or resolution of a Fault is delayed due to third-party dependencies (being circumstances beyond the Company's reasonable control, including but not limited to delays caused by third-party suppliers or the provision of defective or incompatible goods or services by such suppliers) the Company shall not be liable for any resulting delay, impact, or failure to meet the applicable Service Levels or performance targets.

- 1.5. The Company reserves the right to reclassify the priority level of any reported issue following initial assessment or upon implementation of a temporary workaround. Such reclassification shall be communicated to the Customer and shall be final unless otherwise agreed in writing by the Company. For example, Priority 1 issues may be downgraded to Priority 2, and Priority 2 issues may be downgraded to Priority 3, following the application of a temporary solution.
- 1.6. To enable the Company to meet the service standards set out under this Schedule 1, at the request of the Company or its Authorised Provider, the Customer shall ensure that its personnel are onsite and that remote access to the Service and/or Software, or affected product or system is available to allow remote diagnostics and maintenance. Where remote access is required by the Company, the Customer shall facilitate such remote access by promptly installing and running any remote access tools reasonably required and/or provided by the Company.
- 1.7. The Service Levels shall only apply to Faults traced to the Company's or its Authorised Provider's Service platform and not to Customer CPE and Customer network connectivity related Faults.
- 1.8. It is technically impracticable to provide a Fault free Service and the Company does not undertake to do so.
- 1.9. The Customer acknowledges that the Company's ability to meet the Service Levels is dependent on the Customer providing timely access, information, and cooperation. The Company shall not be liable for any delay or failure to meet the Service Levels where such delay or failure is attributable to the Customer's failure to provide reasonable assistance, access, or communication.

2. CUSTOMER REPORTING

- 2.1. To assist the Company in meeting the service levels detailed in paragraph 1 above, when reporting an issue, the Customer shall provide the Company with:
 - 2.1.1. the date and time at which the problem occurred;
